Dear Ms. McKenna and Mr. Jacobson:

I am writing to let you know that mold was discovered in the basement of 219 Melrose Ct. I would appreciate it if you would share this with Andrea and Adam as I don't have their email addresses.

Due to the heavy rainfall this year the ground was saturated and water came in to the basement.

Heritage has assigned a crew to clean up this week and place a dehumidifier in the basement.

We have also commissioned the duct work be cleaned to be certain no spores filter through when using the AC and furnace. A new filter will be placed in the unit.

If you have any concerns or are allergic to mold please give me a call and we can discuss your options.

I also want you to be away that the basement may remain damp for a while and advise that you not store anything down there.

Sincerely,  
Cathy Fountain
